
a
Real distance error exceeds the one-source tolerance in 346 of 356 cases
above the line: data admit one source
worst-leaf residual / median observed distance
1
0.1
krepp ANI (n=296)
krepp placement (n=60)
below: mixture justifiable
0.1
1
Θ1 / median observed distance
b
Every real stool sample sits below a krepp-scale distance error
krepp median-leaf residual scale
29 stool samples (sorted)
krepp worst-leaf residual scale
0.1
1
Θ1 / median observed distance
